

Кострома – сказочный город!

Роман Александрович Иванов, ученик 4 «В» класса ГОУ СОШ №2036, Москва

Учитель английского языка Москвина Марина Павловна.

On summer 2010 my parents and I visited Kostroma city. We saw a lot of beautiful buildings, museums, old churches, Central Square and a large market. The market was built of white stone and it looks like a castle. There are two rivers in Kostroma city, the Volga and the Kostroma. We swam in the Volga.

We have visited many interesting places there. One of them is an outdoor museum “Kostromskaya Sloboda”. People made everything of wood there: buildings, churches, streets. Well, now I know how people lived in the 18 century.

One of the most interesting places was house of Berendeeva Snow Maiden. We met many fairy characters and we saw a real ice room with ice furniture. I drank cranberry juice from an ice glass.

There is an elk farm near Kostroma city. We fed elks with carrots, tried elk milk and saw baby elks. They were very nice and we had lots of pleasure. We made many photos and bought souvenirs there.

I like Kostroma very much and I would like to visit it again!
