Our technical school has the museum of history.

There are a lot of preserved clothes: shirts, towels, sandals and many others. For the moment our museum has about 400 exhibits.

There are antique irons, samovars, pots and household things found on the territory of our republic by activists of the museum's board.

Every year the director of the museum conducts excursions in different regions of our republic.

Teachers combine traditional class work with the study including museum objects.

Many exhibits are made by the students. There are many handmade things in the museum. One of them is a beautiful carpet decorated by Chuvash design.

Many people come to see our museum.

Among them there are the former teachers of our technical school and veterans.

Welcome to our museum! We are always glad to see you!
