Taganrog-beautiful town!

Do you want to visit the city with rich and interesting history? Do you want to see ancient buildings and places, where Peter the Great stayed? Welcome to Taganrog!

Taganrog was officially founded by Peter the Great on September 12, 1698. This town has different events in his life. For example, World War II, Crimean war, revolution of 1917 and others. This city gave us such famous people as Anton Chekhov and Faina Ranevskaya.

Taganrog is much more famous as the hometown of Anton Chekhov. Chekhov was born in 1860 in a small house. Nowadays it is a museum. Many places in our town are connected with Anton Pavlovich Chekhov. Also in Taganrog there is the Art Gallery, the Alferaki Palace, the Birthhouse of Faina Ranevskaya, the Depaldo stone stairs.

This town is very beautiful and comfortable for life and entertaining. Taganrog is a tourist centre. More and more people come to Taganrog every year. There are sandy beaches, warm water of the Azov Sea, historical places.

In my opinion you should see the Depaldo stone stairs if you will come to Taganrog. This Staircase was constructed in 1823 by the project of the Italian architect Francesco Boffo with the donation of Taganrog's Greek merchant Gerasim Depaldo.

Taganrog is an amazing provincial town.
