THE HISTORY OF OUR VILLAGE

- There are two stories about the creation of our village. As a matter of fact, the man Ishtirek with his family came to our places after the battle many years ago. If we are not mistaken, it was from 1545 till 1550. So having thought a bit, they decided to stay and live in these areas, that's the village was named after this man. Besides, this place was surrounded by forests and there were a lot of animals. Thus, cutting down these forests, people built houses. It's known that the first inhabitants were comes of different nations. But some years later tatar people came there and the village was extended. By the way, they say that once mardova dripped their gold things, there.
- First school, shops, club and mosques appeared in the village after the revolutions, and the collective farm was created in 1930. But unfortunately, there was a great fire and 80 houses were burnt in 1932. And the new school was opened in 2003, and the new mosque was built in 2005.
