**Everyone has his own place where he feels himself comfortable and where he always wants to come back. For me it's my home town**

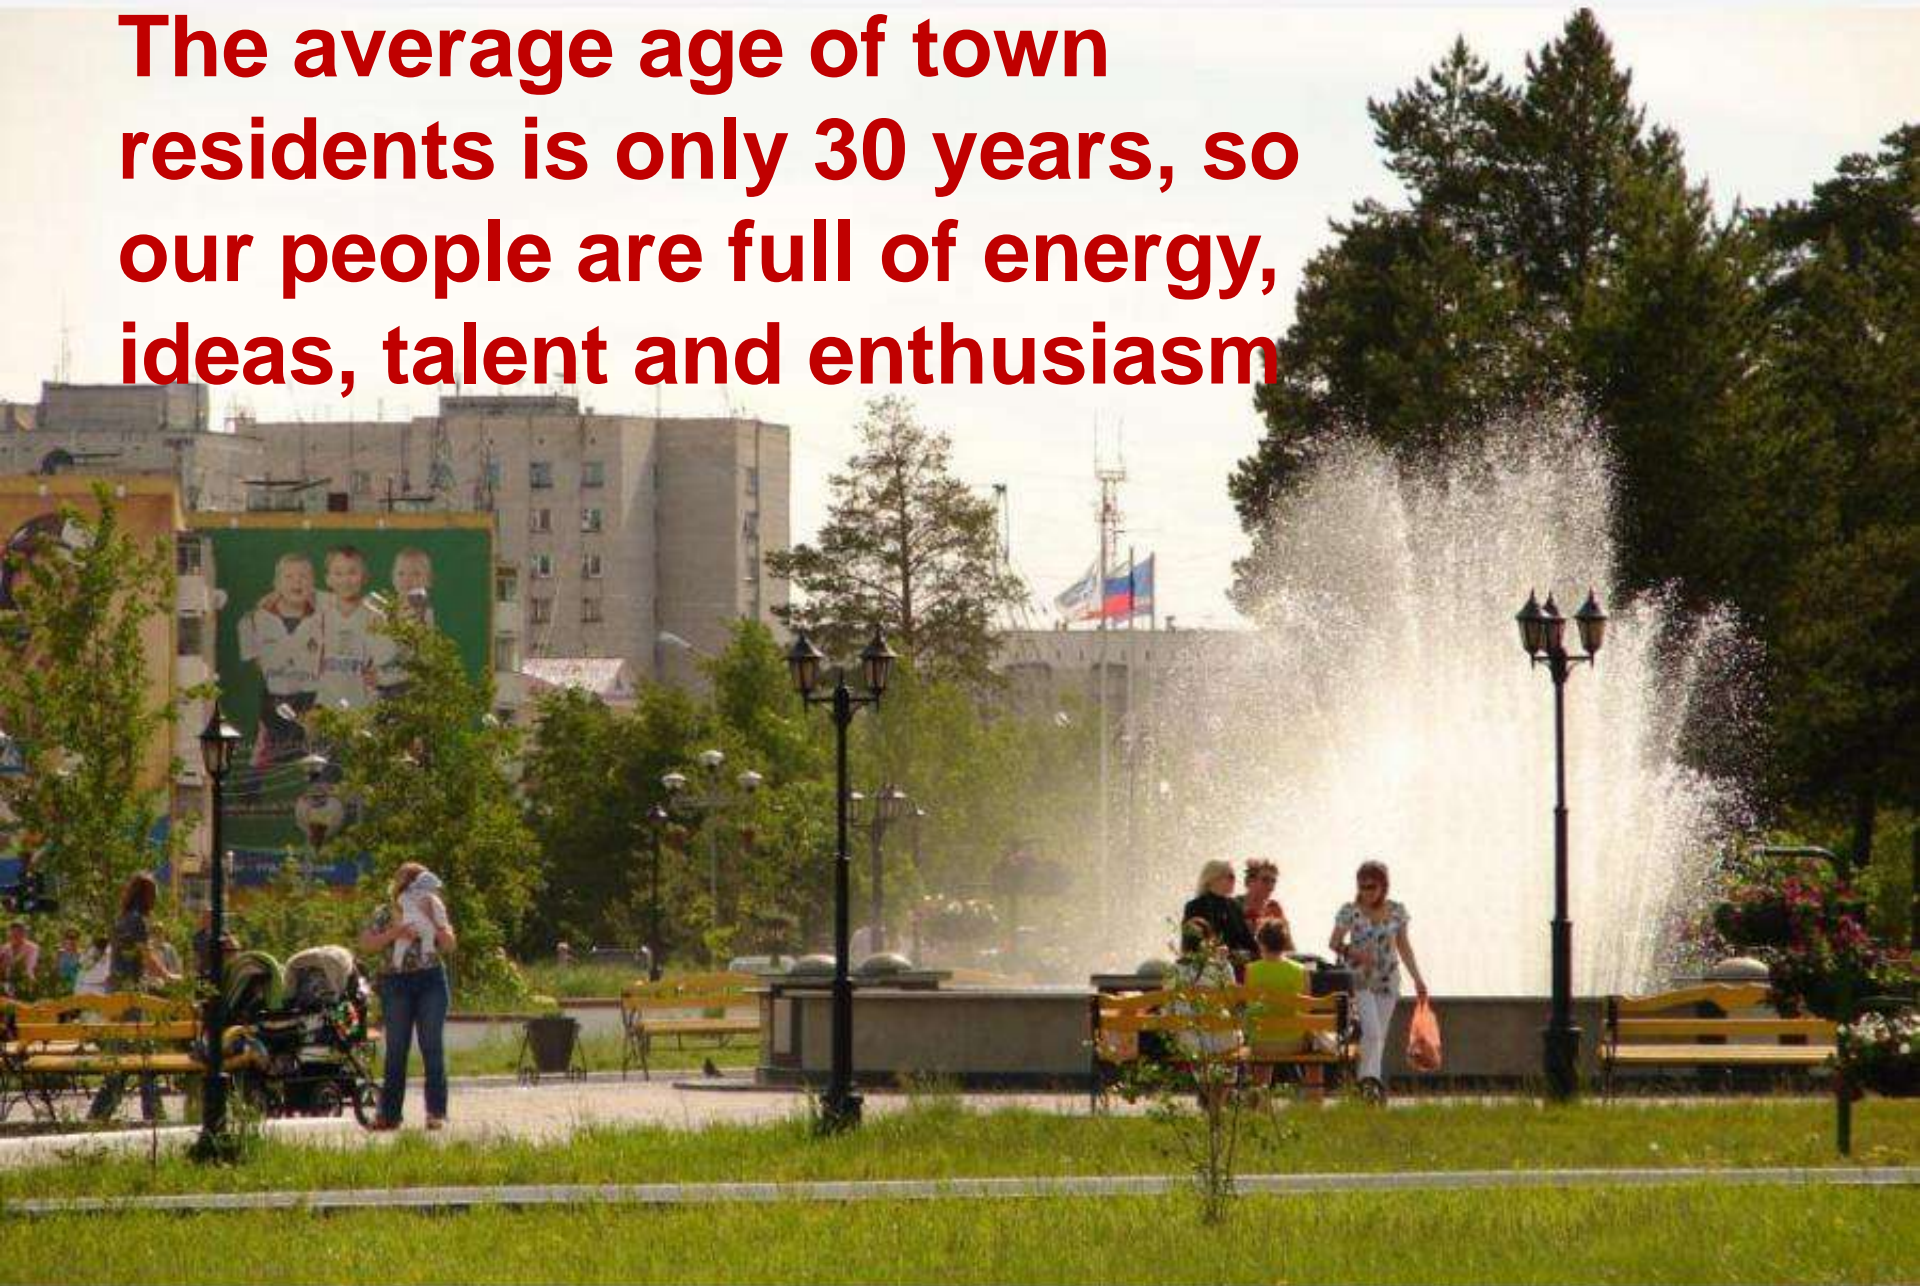

I and my family live in the north of Russia in a town which is called Noyabrsk. I like my town very much for its white nights, severe and beautiful nature with cold winter, bright autumn and sunny springs.

**It is also known as “south gates” of Yamal region because it is the first town which people see when they come across our region. It is a young city which looks to the future with hope**

**The average age of town residents is only 30 years, so our people are full of energy, ideas, talent and enthusiasm**

**The history of Noyabrsk was started in 1975 when the first explorers arriving by helicopter landed on the ice of the Itu-Yakha River to start developing Kholmogorskoye oil field**

**There are a lot of interesting sights in Noyabrsk. There are some buildings which can catch our eyes. The Intellect-Center is a library of new generation. It is a common information space where you can find thousands of different books on hundreds languages**

**The other pride of our town is the Children Musical School. It is one of the most beautiful and modern building in our region. Nowadays about thousand pupils of our town study there.**

**Noyabrsk has its own TV broadcast. It is provided by Telecenter.**

**The Telecenter is a main place for TV reporters and journalists, because our local television has its own programmes**

Also our town is full of different monuments which reflect our history and characteristic features of region. To my mind the main monument of our city is the memorial complex of the defenders who fell in the Great Patriotic War it is more known as eternal flame

**I believe that every citizen has his favourite monument in Noyabrsk. As for me my favourite sight of our town is the Mosquito monument. It was built in 2006 by the local sculptor Valeriy Chaly.**

**The most impressive sight of Noyabrsk is the Aviators Monument. It is a real helicopter near the airport which is dedicated to the first discoverers of our town. The monument of scorched youth is devoted to young soldiers who were killed in hot spots**

- ① **I'm really proud of my home town because it's very bright and extraordinary place. The energy of our people brings prosperity to our infrastructure. I believe my town has big perspectives because of its oil reserves and gas fields. Furthermore, Noyabrsk is still developing and I hope in future it will be one of the greatest cities in our country.**
