

Конкурс «Наша страна – наше наследие»

*Рассказ о самом прекрасном месте на карте России
«Володино – моя малая родина».*

Авторы –

***Дроздова Екатерина Ивановна,**
учитель английского языка МБОУ «Володинская СОШ»
Кривошеинского района Томской области*

***Сёмина Юлия,** ученица 11 класса,
победитель 3-го регионального фестиваля рефератов
с работой «Володино - моя малая родина».*

2012

In my classroom.

About myself.

Let me tell about myself. I was born in a small village Lapushinka, Tomsk Region, but I lived in the village Monastyrka and finished the secondary school there. After school I entered the Pedagogical Institute in 1975 and finished it in 1980 with Diplom with honours. I studied at the Foreign Language Department. I liked to live in the country, that's why I started my professional career in the village school after graduating from the Institute. First I worked as a German Teacher because only German was taught at our school. It was my first foreign language, but since 1992 I began to teach my students English. I like children very much and enjoy participating in different competitions.

My results are the following:

- The Prize-Winner in the Regional Contest "For High Achievements of the students", Tomsk State University, 2011.
- The Winner of the Regional Contest "Best Teachers of Tomsk Region", Tomsk, 2010
- The Winner of the All-Russian Contest "Best Teachers of Russia"- Moscow, Russia, 2007
- A Semi-Finalist of the US-Russia Teachers Training Teachers Program ,U.S.Embassy, 2005.
- The Certificate for Methodical Project in the British Council "Master-Teacher", British Council, Russia, 2004.
- The Diplomant of the Competition "The Teacher of the Year - 2001".

Also I have some publications:

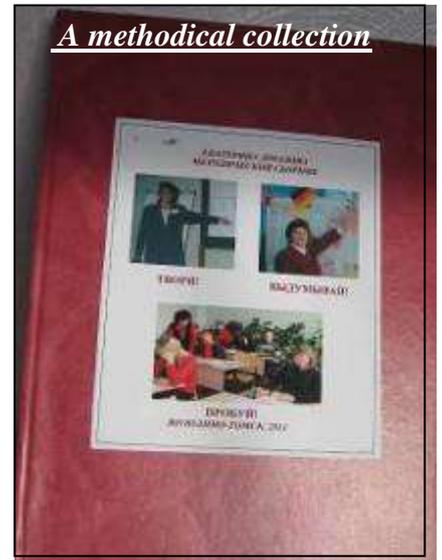

1. A methodical collection "Create! Invent! Test" (360 pages), Tomsk, 2011 (my interesting lessons, scripts, articles for newspapers, reports at scientific conferences, materials about contests, projects, students' research works...)

2. An article "What traits should a real teacher possess"- a report at the All-Russian Conference "Our New School", Tomsk, 2011

3. A book about my life in poetry "A Village Teacher" (90 pages), Tomsk, 2010

4. A textbook for the optional course "English in real life situations", Tomsk, 2008

5. An article "Co-authorship of a teacher and of students", Tomsk, 2006 и др.

A methodical collection

My family is large enough: a husband and three sons: Andrei, Ivan, Jura. All they were born in Volodino and finished Volodinskaya school and later Tomsk Polytechnic University.

My family.

Volodino is our Motherland.

We work and study in a new modern three-stored school, which was built 3 years ago and is our pride. It is big and beautiful and is the best one in Tomsk region.

Last year my student Yulia Syomina was the best among 45 participants in the regional festival with the work " Volodino - is my native village". Here is some information from our work.

Our new school.

We work.

Our village Volodino was founded in 1710 by kazaks. It is situated on the river Shegarka in Krivosheinsky region of Tomsk Oblast. Our village is not very big. About 1500 people live here.

There are two legends about its foundation. The first says that earlier the name of the village was Eryomino because of the first man settled here. Later other families came and one day a serious fight happened. The winner was a strong boy Volodya. He left the settlement with some other men and built houses not far from the place where they lived. It is the second story. Which is right we don't know. Both are truthful. We found this information in our museum and in the documents in Tomsk Archive.

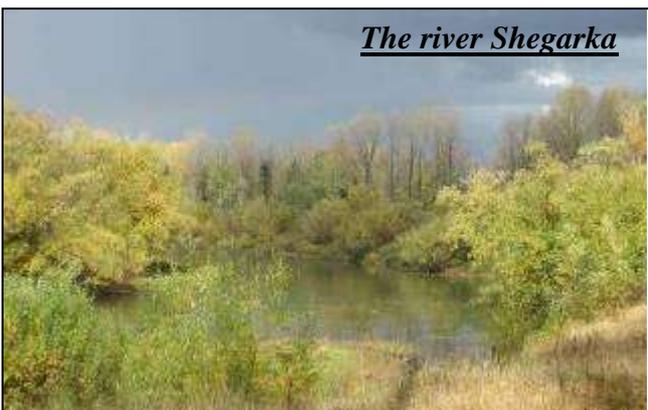

In a school museum.

"A Russian house"

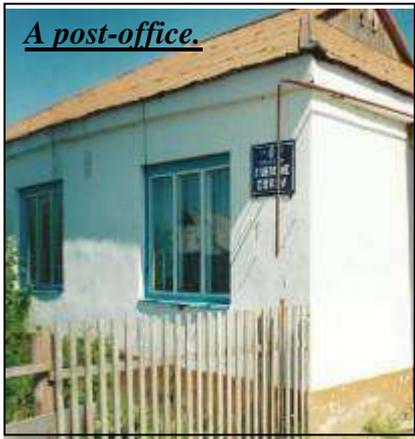

The nature around our village is very beautiful. There are birches, pine-trees, aspen, other trees, but the favourite one is a birch. In the forest there are many wild flowers. In summer everything is green. In autumn the forest is also very beautiful. Everything is yellow: trees, grass.

The river Shegarka

Our nature.

A post-office.

A children garden

One of the shops

There are a lot of places where to go and what to do: a club, a post-office, a children garden, a hotel, a cafe, many shops, two power-stations and a gas-station.

There are a lot of streets in Volodino: Kommunisticheskaya, Dorozhnaya, Sovetskaya, Energetikov, Mira, Lesnaya, Vesennyyaya and others. But the oldest one is Kolkhoznaya street, where the oldest and the smallest houses are situated.

An old house.

Kolkhoznaya street.

A new house.

Energetikov street.

Twice our village was among the best villages of Tomsk region in the contest, organized by the Regional Authorities.

Nowadays my native village is becoming better and better. New houses and shops appear, the streets are getting cleaner, there are a lot of flowers everywhere. The most beautiful flower-beds appear every summer near our new school.

50 years of space

65 years of Victory

We have also a modern cafe, a hotel. In 2010 our village was 300 years old. There was a big holiday at the stadium. All people came here to celebrate. A lot of guests visited our village and presented gifts.

More and more children are born every year.

We like our native village very much and devote poems and compositions to it in both: in Russian and in English:

**We live in Russia, Tomsk Region,
In village Volodino, far to the North-West.
And we like our school and our village,
Our motto is: "Try to do all the best".**

We think our village has brilliant future because we have good opportunities for life. We are glad to live in Volodino and are sure that our village is the best in the world.
