Secondary school
Rovdino
Shenkursk district
Arkhangelsk region

March, 2012

ABOUT ME

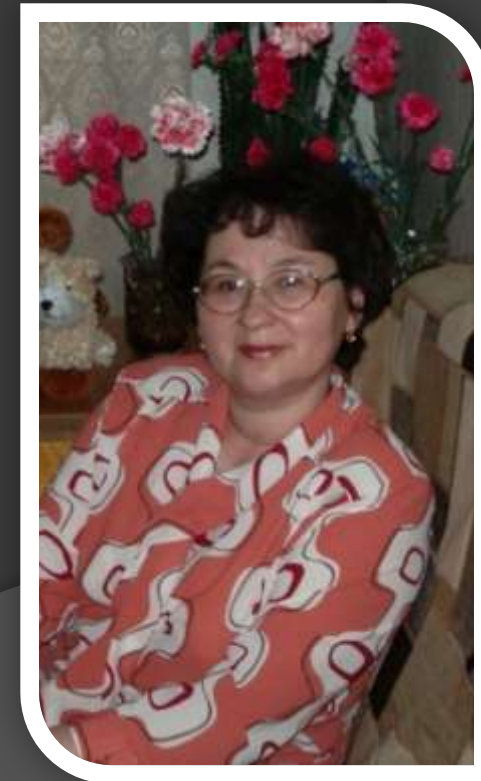

I am 14. My parents and I are keen on animals. We have got two cats and a dog. They are so funny! I adore them.

My favourite school subjects are Social Science and English.

I walk with my friends with great pleasure, listen to music and knit.

My English teacher, Irina Leonidovna Berezina, and I have the same hobbies. She is fond of taking photos, so am I. I like growing flowers, so does she. Irina Leonidovna helped me to take part in this contest.

(All photos are taken in our place.)

- Books about Rovdino by T.V.Kuklina

Nowadays Rovdino has the fate of many other Russian villages: there was a great past, there is a sad present and, we hope, there will be a happy future.

In Rovdino people are hardworking, active and creative. Songs, poems, plays, festivals are performed not by professional actors, but by our inhabitants, old and young. They are skillful, talented, not indifferent people. That's why life in Rovdino is not boring for those who don't want to be consumers but creators.

A hanging bridge is a very unusual thing for modern people. It's got piers only on the banks of the river. And while you're crossing the bridge, it's swinging.

Our splendid nature is a priceless treasure of Rovdino .

In winter there is sparkling pure white snow everywhere. Trees wear their wonderful silver clothes. Frost creates its ice masterpieces.

You find yourselves in a real fairy tale!

Spring breaks ice on the Vaga.

This season makes the place light green, tender and very touching.

Primroses bring a special charm to our life.

In May one can hear a beautiful nightingale's song at "white" nights. It's unforgettable!

In summer fishing, swimming, sunbathing are very popular with people. Our forest, pure air attract holidaymakers.

Autumn paints trees, bushes, grass with golden, reddish and brown colours.

It's a real feast for eyes!

This season is rich in various berries and mushrooms.

It feeds the people who are not lazy.

We believe our life in Rovdino will be as bright and rich as autumn tints.
