*Have you ever heard of an industrial heart of Russia?
It's Kuzbass, our hometown, and the place where we live
and study.*

*It's territory is vast and people are proud.
We have a wide range of sightseeing–sports,
cultural, historical and entertainment places.*

The “Khimik” stadium, “Arena” volleyball centre and the Winter Sports Palace are popular not only with athletes and sportsmen but among our citizens too. They are the right places to spend your time if you want to be fit and active.

Beautiful parks and squares are another tourist destination. Kemerovites are fond of Vesennaya Street and embankment of the Tom. They are often full of people. Young people are into our “Park of Wonders”. Everyone can find an activity here—go roller-skating, have a picnic, ride carousels or simply enjoy the picturesque views of nature.

Young people can find a number of night clubs, discos and cinemas for any taste.

Practically every district of Kemerovo has its own leisure places—that's where you can go with little children, teenagers or a company of friends, communicate with mates, feed the birds, eat ice-cream, and have fun.

The achievements of our people are marked with diverse awards – medals and orders. We are proud of our people and region! Welcome to our heroic region.
